SDC

Hackathon

Replit Proof of Use

SDC Hackathon 2026

Project Name: TwinBoss — The SME Owner's Digital Twin
Team Name: kpmbians
Institution: Kolej Profesional MARA Beranang

Purpose of Use

Replit was used as the primary development environment for the TwinBoss prototype. The team used Replit Agent to assist with code generation, feature implementation, and interface refinement. Team members also contributed code and improvements to the application's functionality.

Supporting Evidence

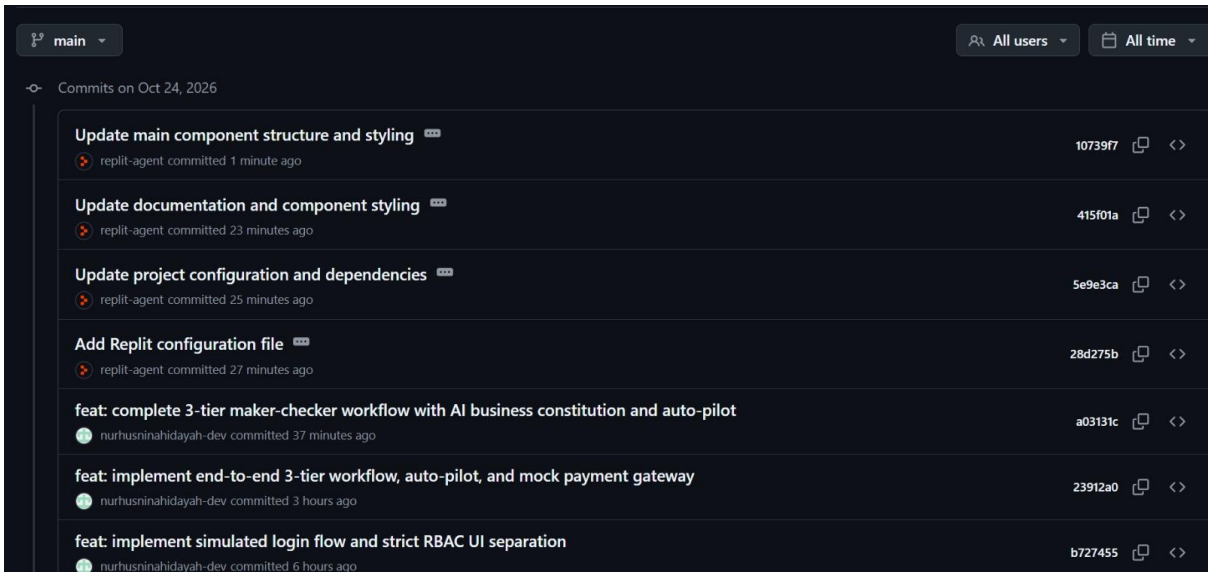

Figure 1: Replit commit history showing development activities, including AI-assisted code generation, implementation of the three-tier workflow, simulated payment gateway, and interface improvements.

Acknowledgement

Replit Core access was provided free of charge through SDC and supported the development of the TwinBoss prototype.
